EDUCATION

Bachelor of Engineering - Electrical

Jan 2016 - Nov 2021

Ahmadu Bello University, Zaria Nigeria

CGPA = 4.30/5

PROFESSIONAL EXPERIENCE

Seismic Consulting Group Abuja, Nigeria

July 2023 – Present| Technical Lead

- Determining project requirements and developing work schedules for the team.
- Delegating tasks and achieving daily, weekly, and monthly goals.
- Liaising with team members, management, and clients to ensure projects are completed to standard
- Identifying risks and forming contingency plans as soon as possible.
- Analyzing existing operations and scheduling training sessions and meetings to discuss improvements.
- Keeping up-to-date with industry trends and developments.
- Updating work schedules and performing troubleshooting as required.
- Motivating staff and creating a space where they can ask questions and voice their concerns.
- Being transparent with the team about challenges, failures, and successes.
- Writing progress reports and delivering presentations to the relevant stakeholders.

April 2023 - Present| Machine Learning Engineer

- Designed and developed a conversational AI chatbot integrated with client fiscal planning and budgeting system.
- Implemented natural language processing (NLP) algorithms to allow users to query financial data, review budget reports, and receive budget-related insights in real time.
- Developed custom algorithms to ensure accurate parsing of financial terminology and integration with financial databases.
- Managed API integrations with financial software to facilitate secure and seamless data exchange.
- Built an intelligent agent integrated into the organization's LMS to support curriculum development, lesson planning, and creating schemes of work.
- Optimized agent performance and ensured alignment with academic guidelines and organizational requirements for curriculum development.

Mar 2022- April 2023| Data/Research Associate

- Provided research support, case writing and data analysis, managed case submission process, edited, redrafted, and commented on working reports.
- Interviewed beneficiaries and participated in 2-3 sites as background research for research publication.
- Established robust tools and processes for gathering, assessing, and reporting project outcomes in third-party monitoring and evaluation. These innovations enabled clients to measure program impact effectively.
- Designed and crafted user-friendly analytics dashboards, facilitating the visualization of key performance indicators and metrics. These dashboards empowered clients to make informed, data-driven decisions.

Aug 2020- Jun 2022 |Data Scientist| RouteWatche Texas USA

- Proficiently employ data analysis to extract actionable insights, facilitating evidence-based decision-making in the realm of human security.
- Develop and refine predictive models, enabling the anticipation of security-related trends and proactive measures for risk mitigation.
- Utilize geospatial data to map criminal activity and identify patterns, contributing to the strategic allocation of resources for crime prevention.
- Analyze and identify security hotspots to concentrate efforts and resources where they are most needed, effectively reducing vulnerabilities.

- Conduct in-depth security assessments to create holistic, data-backed strategies for enhancing safety and security.Leverage the capabilities of artificial intelligence to enhance security systems and create efficient, adaptive, and proactive security solutions.

Apr 2021 – Dec 2022 |Data Scientist| *Juli Health*

- Mood state prediction of our users based on the various conditions.
- Help users monitor and improve their condition using AI to predict triggers ahead of time and recommend ways to avoid them.
- User state prediction for bipolar and depression using data science.
- Analysis of biweekly questionnaire data to better understand how users' condition has improved over time using our app showed a 14% improvement over an 8-week period.
- Gained insight from data using visualization techniques and tools.

CAREER ACHIEVEMENT

- Conducted data analysis for the third-party monitoring of the World Bank-assisted Innovation Development and Effectiveness in the Acquisition of Skills (IDEAS) Project, 2022
- Developed a database to store and analyze data for the monitoring and evaluation of the World Bank-assisted AGILE Project, 2022
- Conducted research for incorporating AI into health for the UNICEF assisted health solution grant,2023
- Collected and analyzed data in Niger State, Nassarawa State and Bayelsa State as a third-party monitor for the World Bank assisted NG-CARES project 2023
- Developed a database to store and analyze data for the monitoring and evaluation of the World Bank-assisted NBTE Project ,2023
- Collected and analyzed data in Niger State, Nassarawa State and Bayelsa State as an independent verification agent for the World bank assisted NG-CARES project, 2023
- Collaborated with my team to conduct an education sector review of Oyo, Adamawa and Katsina States for the World Bank BESDA-af-TESS Project ,2023
- Designed and deployed a chatbot integrated into a fiscal planning and budgeting system, enabling real-time data access, budget reviews, and user-friendly financial insights for streamlined decision-making ,2024
- Built an intelligent agent integrated into a Learning Management System (LMS) to support curriculum creation, lesson planning, and automated generation of educational materials, enhancing efficiency and resource alignment for educators, 2024

WORKSHOPS/CONFERENCES/WEBINERS

- | | |
|---|------|
| • Getting Started With Generative AI on AWS | 2023 |
| • Data Fest Africa | 2023 |
| • Introduction to Survival Analysis: Application in Health Data Science Using R | 2021 |
| • Machine Learning Model Fairness and Interpretability With AWS | 2022 |

AWARDS AND PROFESSIONAL AFFILIATION

- | | |
|---|-------------|
| 1. Fellow, Homoye Data Science (HSDC) | 2022 – Date |
| 2. Certified IBM Data Science Professional, Coursera e-Learning | 2021 - Date |
| 3. Member, Institute of Electrical and Electronics Engineers (IEEE) | 2021- 2023 |
| 4. Member, Nigeria Society of Engineers (NSE) | 2022 - Date |

APPLICABLE SKILLS

Technical Skills

Programming Languages Python, SQL

Data Analysis Tools/Libraries Pandas, Numpy, Matplotlib, Seaborn, BeautifulSoup

Machine Learning Supervised, unsupervised, deep learning.

NLP Topic Modelling, Sentiment Analysis, NER, Chatbot

Data Visualization Tools Plotly Dash, PowerBi, MS Excel

Cloud AWS

Database MySQL, PostgreSQL, MSSQL

Business Intelligence Plotly Dash, PowerBi

Other Skills

- People management and organizational skills
- Team building and staff supervision.
- Decision making
- Ability to communicate (Oral and Written) in English

VOLUNTEER

EXPERIENCE/COMMUNITY SERVICE

Pioneer Deputy Ambassador, DNS Ondo City

2020 - Present

- Organized and executed a groundbreaking "AI Invasion" event, uniting approximately 150 participants.
- Facilitated key collaborations resulting in the acquisition of the Hunnovate Tech Hub and the University of Medical Sciences
- Established these hubs as incubators of innovation and learning, fostering collective endeavors and educational pursuits in data science and AI.
- Showcased the immense potential of artificial intelligence, marking a significant stride forward in Ondo City's technological landscape.
- Organized and conducted numerous training sessions tailored to diverse demographics.
